Preparing the evidence

Read every criterion in full before assigning points. Assemble script references, source-author information, team nationality and role records, shooting schedules and post-production evidence. Do not infer a score from the short labels above. Review the score whenever the project changes.

Limits of this summary

The official decision governs exclusions, script submission and reassessment at registration, financing, payment and final-product monitoring. A cultural pass does not establish financial eligibility or guarantee approval or payment. This sheet replaces the 2019 35-point summary; it is not an application form.
